Designs and layouts

In order for me to create a website that you are 100% happy with I will need an accurate detailed description as to what you are looking for and what designs you wish for your website to have. When you agree to these terms and conditions you agree to provide me with a detailed list as to what you want your website to look like. Whether it is a different website that you like the look of or if it's completely from your imagination.

Contracts

If a website development service is offered to a client and the total cost goes above £300 then the client must sign a contract in order to continue with the service. Once the contract is signed both parties, the client and Lloyd Bryant Enterprise both will be given a signed copy of the document. Both copies must be signed by both parties. By the client signing the contract this means that once the service is provided and finished the client has a legal obligation to pay the full amount. If the full amount isn't paid then there may be consequences. If the full amount is £600 or more and if it is not paid for after the service is completed and the payment is then required then Lloyd Bryant Enterprise (l) may issue a High Court Writ if the full amount isn't paid within 48 hours. If the full amount cannot be paid within 48 hours the client must tell Lloyd Bryant Enterprise about this and you may be given a week breathing space to pay the full amount.

What is a high court writ?

A high court writ (formally known as a writ of control) enables the use of a high court enforcement officer's powers to visit your business premises. The high court writ allows them to remove goods to the value of the county court judgment, plus the HCEO fees.
